White Egg Layers

Hyline Leghorn

Excellent white egg layer with 3.60 to 3.80 body size...287 to 307 eggs per hen housed...3.2 to 3.5 pounds, feed/dozen eggs. Excellent shell texture and egg quality.

Anconas

White tipped to solid black feathered white egg layer. A mild disposition and a non-sitter with yellow skin. Females have a single straight up right comb, where as the male have a medium sized rose colored comb.

California White

Excellent layer with a mature body weight of 4.5 pounds. Docile temperament; a cross between a Babcock Pullet and a California Grey Rooster.

Multi Colored Egg Layers

Americana - Easter Egg

Chicks can be assorted colors — white, brown, red or black. Eggs are all shades of blue, green and light cream color. A 5.5 pound native bird. No color choice in chicks or eggs.

Meat Type

Cornish-Rock Broiler

JUMBO-size Cornish Rock Broilers will weight 4.5 to 5.0 pounds at 8 weeks of age. Their broad, meaty breasts and thighs, along with rapid growth, make these broilers on of the most efficient converters of feed to meat available today.

Freedom Rangers (Red Ranger)

Freedom Rangers are mostly used in non-factory farm production and a slower growing breed. They are better suited for an all true-natural raising system, free range, organic, or backyard.

The chicks can vary in color from, yellow, redbro to tri-color, but all are of straight stature with yellow strong shanks, beaks and skin.

Brown Egg Layers

Barred Rock

Brown egg layer with mature body weight of 5.5 pounds. This bird lays very well and carries nice egg size of medium brown color. A tight feather pattern of gray, black and white.

Asian Black

A good brown egg layer, weighing between 5 to 7 pounds. A single comb, black footed bird with a predominately solid black feathering.

Black Australorp

Brown egg layer with mature body weight 5.0 - 7.0 pounds. Glossy black plumage with greenish-purple sheen.

ISA Brown (Gold Star)

Brown egg layer with mature body weight of 4.7 pounds. Excellent egg size and fine shell quality. Straight-run chicks give you RED pullets and WHITE cockerels.

Production Red

Brown egg layer with mature body weight of 5.0 - 5.5 pounds. This is the same type of bird as the Rhode Island Red. Nice egg color and good egg size with strong shells.

Buff Orpington

Brown egg layer, a large 6 pound bird, quiet with a rich golden buff colored feathering.

Silver Lace Wyandotte

Medium weight, 6 to 8 pounds, laying a brown egg. A dual purpose bird, for meat and eggs. With a yellow skin, rose comb and a big black and white webbed feathering.

Specialties

Light Brahma

A large framed, dual purpose growing heritage breed. Mature roosters topping the scales at 14 pounds with hens laying jumbo brown eggs. A docile disposition and majestic appearance of white and black feathers that extend down the legs, shimmering and they make a beautiful addition to any yard.

Buff Brahma Bantys

A shiny brownish red coloring with 5 toes, feathered legs that lays a small brown egg.

18 Week Old Gold Star & Leghorns

Tired of having to raise your brown or white egg layer chickens for your egg market? We have 18 week old pullets for sale in March and September. To be picked up at the farm. Sorry, we can not ship these. For more information call the hatchery.

Salmon Faverolla

These birds are wonderful, whimsical looking, with muffs, a beard, feathered feet and five toes. Laying a light brown pinkish medium egg. Docile in nature - even the roosters.

Assorted Bantams

Only available late April through June, these 12 different miniature chickens are sold only in straight run and in lots of 30

Indian Runners

Fawn & White

These ducks have a bottleneck body, stand up right, and have a long wedge shaped bill with orange legs and feet. They are a lightweight duck, but are an incredibly prolific egg layer.

Turkeys

Our turkeys are the large Broad-Breasted type. The B.B. white turkeys will turn white as they mature whereas the bronze will have a black/brownish feathering.

Guineas

French Gray Guineas

They are a strange looking bird with gray and white spotted feathers, and a unique cone or nob head dress. A great watch dog that helps keep bug population down. They also make a delicious meal of moist dark meat. Try it instead of chicken. A shrill voice.

Pheasants

Ringneck

These hardy birds adapt readily to the wild and are prized by sportsmen for their excellent flying ability and brilliant colors. At maturity the cocks weight is 2.7 to 3 pounds and the hens 1.7 to 2.2 pounds.

Ducklings

Rouen Ducklings

The most popular. Our Rouens come from a very select large size stock. This is a large type duck and once mature is seldom pinny. Coloring of the Rouen is the same as the wild Mallard.

Pekin Ducklings

Pekins are bred for fast growth. They are the largest strain of the Pekin family, and should not be confused with the common Pekin. Mature weight is 8 to 11 pounds.

Mallard Ducklings

A very beautiful duck like the ones you see in the wild. Since they are originally wild ducks they must be in a pen with a top or have their wings clipped as they can fly. Mature weight is 3 to 4 pounds.

PRICE LIST 2016

(Subject to change without notice)
